

# Alternate QA requirements

- **Safety related SSCs with a low safety significance.**
- **Supports Code Case N-940: Alternative Rules for NDE and Testing**
- **Provide option for Division 5 designs to use graded approach based on safety significance.**
  - Use established design rules.
  - Align QA requirements with typical industrial codes, e.g. ASME Section VIII.
  - Items are certified and stamped IAW Section III.
- **Future expansion to include Division 1.**
