

Stephanie Weir

Siting and Regulatory Strategy Manager

Stephanie Weir serves as the National Reactor Innovation Center's (NRIC) siting and regulatory strategy manager. In this role, she is responsible for developing and managing NRIC strategy and projects relating to advanced reactor siting, including collaborating directly with and seeking input from industry, DOE, NRC, national laboratories, universities, tribes and other stakeholders. She is also responsible for developing, managing and executing NRIC's national strategy relating to regulatory and siting risk reduction.

Before joining NRIC, Stephanie most recently served as an attorney advising both public and private clients in a wide range of federal and state environmental, health & safety, real estate and land use matters in both litigation and transactional settings.

Stephanie holds a JD (admitted in Idaho, Washington, and Oregon) as well as BS degrees in geology and physical science.
